OBJECTIVE

I am a third-year B.Tech Computer Science Engineering student at KL University with a strong passion for coding, web development, and problem-solving. I have a keen interest in exploring emerging technologies and applying my skills to real-world projects. As a continuous learner, I am committed to enhancing my technical expertise, gaining practical experience in software development, and building innovative solutions.

EDUCATION

KL University, Hyderabad	2023 – Present
B.Tech in Computer Science and Engineering	CGPA: 8.8
Sri Chaitanya Junior college	2021 – 2023
Telangana Board of Intermediate Education	92.4%
Sri Satya Sai High School	2019 – 2021
State Board of Secondary Education	100%

PROJECTS

Fade Connect (Salon Booking Web App)

Fade Connect is a smart salon booking web application designed to simplify the process of finding and booking salon services. The platform connects users with nearby salons through Google Maps integration, allowing them to locate salons based on their current location. It offers features such as secure login/signup, real-time slot booking, service selection, and appointment management. Additionally, salon owners can access a dedicated dashboard to manage bookings, customer details, schedules, and business operations efficiently.

ManaChitti (Chit Fund Tracker)

- ManaChitti is a user-friendly web application developed to help families and small groups manage chit fund activities digitally. The platform enables users to track monthly contributions, member payments, and fund balances in an organized manner. It includes automatic interest calculation for pending or completed payments, ensuring transparency and accuracy. To improve payment discipline, the app also provides SMS reminders and notifications for upcoming due dates, making chit fund management simple, reliable, and hassle-free.

SKILLS

Problem Solving & Analytics	Structured problem decomposition, data analysis, logical decision-making, insight generation
